LeetCode: leetcode.com/u/zebra0307 **Codeforces:** codeforces.com/profile/zebra0307

Codolio: codolio.com/profile/zebra0307

OBJECTIVE

Computer Science undergraduate seeking a **Software Engineering Internship** to apply strong problem-solving skills and hands-on experience building scalable full-stack applications. Proven ability to deliver solutions under pressure through national-level hackathon participation. Eager to contribute to innovative projects at a leading technology company while learning from industry experts.

EDUCATION

Rajkiya Engineering College, Sonbhadra Aug 2024 — May 2028 (Expected)

Bachelor of Technology in Computer Science Engineering

- **SGPA: 8.05/10**
- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Operating Systems

Jawahar Navodaya Vidyalaya, Sant Kabir Nagar Sept 2016 — May 2023

Higher Secondary Education (CBSE)

- Class XII (PCM + CS): **87%** | Class X: **91.2%**

TECHNICAL SKILLS

Languages: C++, C, JavaScript (ES6+), TypeScript, Python, Rust, SQL

Data Structures & Algorithms: Arrays, Linked Lists, Stacks, Queues, Trees, Graphs, Dynamic Programming, Recursion, Sorting & Searching

Frontend: React.js, Next.js, Redux Toolkit, Context API, HTML5, CSS3, Tailwind CSS, Material UI

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Mongoose ODM

Databases: MongoDB, MySQL, PostgreSQL

Tools & Technologies: Git, GitHub, Postman, VS Code, npm, Vercel, Docker (Basic)

HACKATHONS

0 to 1 — Hack with Uttar Pradesh Nov 2025

Chandigarh University | Theme: AI in Healthcare

- Built **Medi-Mitra**, a full-stack healthcare platform designed to bridge the gap between **hospitals, pharmacies, and patients** in underserved rural areas
- Addressed the critical problem of **doctor-to-patient ratio imbalance** by enabling remote consultations, prescription management, and medicine availability checks
- Implemented features for real-time video consultations with **WebRTC**

Smart India Hackathon (SIH) 2025 Sept 2025

National Level Competition | Theme: Sustainability & Environment

- Developed **Blue Carbon Registry (OceanVerse)** — a blockchain-based solution for transparent carbon credit management
- Designed a decentralized system to **prevent double-counting of carbon offsets** and ensure verifiable environmental impact

PROJECTS

OceanVerse — Web3 Blue Carbon Registry

Live: `oceanaverse.vercel.app` **Code:** `github.com/zebra0307/blue-carbon-registry`

Solana, Rust (Anchor Framework), Next.js, TypeScript, Tailwind CSS

- Developed a **decentralized application (dApp)** on Solana blockchain to tokenize and verify blue carbon credits as NFTs
- Wrote **smart contracts in Rust** using Anchor framework, implementing secure on-chain logic for environmental data verification (MRV)
- Integrated **Solana Wallet Adapter** for non-custodial authentication, supporting Phantom, Solflare, and other major wallets
- Optimized frontend performance using **Next.js SSR/SSG**, achieving a Lighthouse performance score of **90+**

Interactive Blog Platform

Live: `blogs-mern-hhov.onrender.com` **Code:** `github.com/zebra0307/blogs-MERN`

MongoDB, Express.js, React.js, Node.js, Tailwind CSS

- Architected and developed a **full-stack CMS** enabling real-time CRUD operations for blog posts with an **average API response time under 200ms**
- Implemented **JWT-based authentication** with secure password hashing (bcrypt), protecting user routes and author privileges
- Designed **RESTful API endpoints** following best practices, with proper error handling and input validation
- Built a responsive, mobile-first UI with component reusability

CERTIFICATIONS & TRAINING

- **Turbine3 Builder Program** — Building production-grade decentralized applications on Solana (Oct 2025 — Present)
- **School of Solana Season 7** — Ackee Blockchain Security | Graduated with hands-on Rust & Anchor expertise (Aug 2025)
- **Full-Stack Web Development Bootcamp** — Dr. Angela Yu, Udemy | Comprehensive MERN Stack training (Jun 2025)

COMPETITIVE PROGRAMMING

Active competitive programmer with consistent practice across multiple platforms:

LeetCode `leetcode.com/u/zebra0307` **Codeforces** `codeforces.com/profile/zebra0307`

Codolio `codolio.com/profile/zebra0307`

ADDITIONAL INFORMATION

- **Interests:** Competitive Programming, Open Source Contribution, System Design, Blockchain Technology
- **Languages:** English (Fluent), Hindi (Native)
- **Availability:** Available for immediate internship opportunities
